September/October 2016 Investor Presentation

# Important Cautions

## Regarding Forward Looking Statements

This presentation contains certain disclosures that may be deemed forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to significant risks and uncertainties. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "continue," "efforts," "expects," "anticipates," "intends," "plans," "believes," "estimates," "projects," "forecasts," "strategy," "will," "goal," "target," "prospects," "potential," "optimistic," "confident," "likely," "probable" or similar expressions or the negative thereof. Statements of historical fact also may be deemed to be forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements that speak only as of the date on which they are made. Forward-looking statements reflect management's current estimates, projections, expectations and beliefs, and are subject to risks and uncertainties outside of our control that may cause actual results to differ materially from what is indicated in those forward-looking statements.

These statements by their nature involve risks and uncertainties, and actual results may differ materially depending on a variety of important factors, including, among others, the occurrence of the risks described in the "Risk Factors" section of our most recent quarterly report on Form 10-Q filed with the U.S. Securities and Exchange Commission. In addition to those factors, the following factors, among others could cause our actual results to differ materially from forward-looking or actual performance: our ability to integrate X-spine's business and realize the projected benefits of the transaction; our ability to meet our obligations under existing and anticipated contractual obligations, including financial covenants and other obligations in our secured lending facility; our ability to manage cash flow; the ability of our sales force to achieve expected results; and other factors. We assume no duty to update any forward-looking statements.

Annualized, pro forma, projected and estimated numbers used in this presentation are used only for illustrative purposes and are not forecasts and may not reflect actual results.

This presentation contains certain supplemental measures of performance, such as EBITDA, that are not required by, or presented in accordance with, generally accepted accounting principles in the United States ("GAAP"). Such measures should not be considered as replacements of GAAP. Further information with respect to and reconciliations of such measures to the nearest GAAP measure can be found in the Company's historical filings with the Securities and Exchange Commission.

Any market or industry data contained in this presentation is based on a variety of sources, including internal data and estimates, independent industry publications, government publications, reports by market research firms or other published independent sources. Industry publications and other published sources generally state that the information contained therein has been obtained from third-party sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such information. Our internal data and estimates are based upon information obtained from trade and business organizations and other contacts in the markets in which we operate and management's understanding of industry conditions, and such information has not been verified by any independent sources. Accordingly, investors should not place undue reliance on such data and information.

## Introduction

Xtant Medical Holdings, Inc. develops, manufactures and markets outstanding regenerative medicine products and medical devices for the global spine market

The Company's comprehensive portfolio serves the specialized needs of orthopedic and neurological surgeons including:

- Orthobiologics for the promotion of bone healing, and
- Implants and instrumentation for the treatment of spinal diseases

Xtant operates its Biologics business out of Belgrade, MT, its Fixation and implant business out of Miamisburg, OH, and additional administrative support functions out of Louisville, CO

# Comprehensive and Diversified Product Portfolio

## Growth Drivers

Now that the integration of X-spine is complete, management is focused on driving growth

Portfolio sales (Biologics sold through the legacy X-spine channel and Fixation products sold through the legacy Bacterin channel) could provide substantial growth in the second half of 2016

Selling existing products to existing customers

Investment in consigned inventory and surgical instrumentation in the first half of 2016 will begin to generate revenue in the second half of 2016

New products in development that leverage our call point in spine surgery

## Portfolio Selling Example: Posterior Lumbar Solutions

**\$1.5M**

2Q16 Revenue from portfolio selling, 6.6% of total revenue, up from \$935K in 1Q16

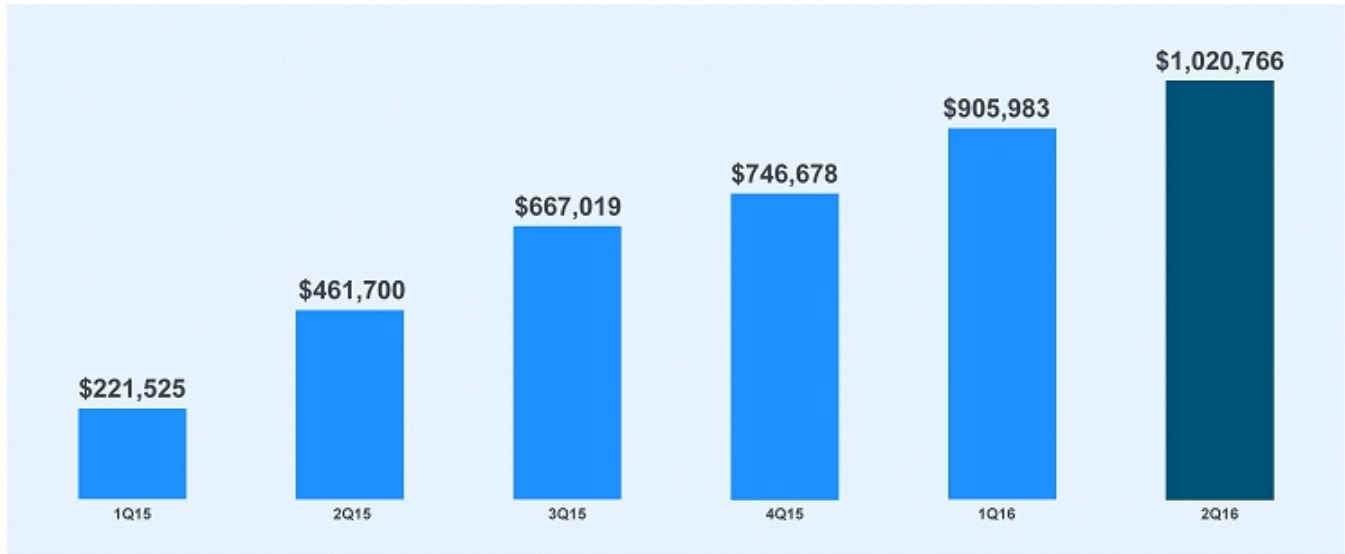

**10-12%**

Management goal for portfolio selling

## Growing Demand for 3Demin since launch

3Demin Revenue
